NOVUS TSS-LM arm 0-0-1

The high-grade NOVUS TSS-LM-Arm 0-0-1 of diecast aluminium is a monitor supporting arm for mounting at every Novus TSS column (excepting TSS column with system clamp and base). The arm can be pivoted 180° in the working area and has a reach up to 122 mm. The ball-joint provides superb flexibility no matter how confined space is, allowing you to select the best possible angle for viewing your monitor. The quick-release mechanism with 1-lever operation allows the monitor weighing up to 15 kg to be attached without undue effort. It is equipped with the standard, widely used flat-screen mount 75 x 75 and 100 x 100 for the mounting of all normal flat-screens.

The adapter plate permits the straightforward attachment of all monitors with the standard 75 or 100 mount.

The product can be turned to either side and has the mentioned reach in mm.

The weight indicates the maximum load-bearing capacity of the supporting element or the maximum weight of an attachable monitor in kilograms.

When used conventional.

This machine bears the GS approval of product safety.

Available in silver/ anthracite
